UNIFORM CARE:

Hemming Skirts/Pants:

- **PARENTS**, you are responsible for hemming skirts/pants.
- CUT SKIRT FABRIC ONLY IF HEM IS MORE THAN 3" - (Choristers = bottom of knee / Concert = one inch from floor).
- Hemming tape is more permanent, is difficult to remove, and leaves a residue behind. If your daughter's skirt requires EXTENSIVE hemming, feel free to use the tape on the first fold only; then whip-stitch the second section to complete the hem. This applies for over 3 inches. Polyester thread will not shrink from washing; please avoid cotton thread unless it has been pre-shrunk to avoid puckering at the hemline.

** Please check uniform hem length and sizing prior to each concert. Many singers grow a significant amount between events and appropriate adjustments should be made.*

Laundering/Ironing:

- Uniforms may be laundered, but be mindful of the instructions: cool water, low/HANG DRY. Please launder after each performance to deter body odors from settling into fabric. **Add 1 cup white vinegar to the wash to remove odors.**
- When IRONING, please place a thin fabric (handkerchief) over skirt / pant to avoid iron and heat marks.
